## WILSON TO DISTRIBUTE PATRONAGE

Announcement Made by  
President's Secretary  
at White House

1400 JOBS ARE VACANT

More Will Occur in Very  
Near Future—Hundreds  
of Applications Filed  
With Congressmen  
and Senators.

Washington, March 8.—President Wilson let it be known today that there was no immediate prospect of letting down the civil service bars to thousands of Democratic office seekers. He told Senator Pomerene that so far he and the cabinet had formulated no policy as to appointments for minor positions in the government service.

Postmaster General Burleson said today that no appointment of postmasters would probably be made before April, except possibly in cases of emergency. Mr. Burleson indicated that it would be his policy to not to disturb capable and efficient employees protected by the civil service.

Secretary Tumulty announced at the White House last night that the administration will proceed immediately to distribute federal patronage.

This applies, he said, not only to the filling of the 1,400 jobs now vacant by reason of the senate's failure to confirm the Taft appointments, but to all other jobs as rapidly as they become vacant.

This information disposes of the report originating in Trenton some weeks ago and reiterated since that Mr. Wilson might hold up the distribution in order to compel the senate and house to act on important legislation, particularly the tariff, according to his wishes.

Tumulty said that the president's experience as governor of New Jersey had convinced him of the fallacy of procrastination in the portioning out of jobs. The president, therefore, will get this work off his hands as rapidly as possible.

By the middle of next week it is expected that the lucky candidates by the score will begin to be named by the president. Every Democratic senator has hundreds of applications for offices on file and they are losing no time in placing these names before the cabinet officers, to whom the president has delegated the selection of appointments.

The same is true, though to a lesser degree, of the members of the house. Although the president's order has effectively excluded job hunters and their supporting delegates from the White House it has not deterred them from writing personally to Mr. Wilson and sending him petitions of endorsement.

Hundreds of such communications kept the executive clerks busy Friday. But not one of the communications reached Mr. Wilson. They were promptly referred to the proper department heads for disposal.

The appointment of Daniel G. Roper, of South Carolina, to be First Assistant Postmaster-general, was announced, and later it was officially stated that James I. Blakeslee, of Pennsylvania, was slated for Third Assistant Postmaster-general.

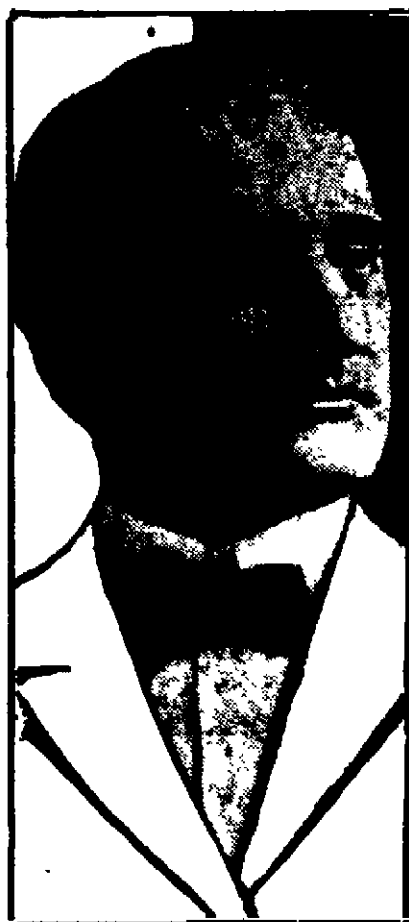

Before making these announcements the president, as a matter of courtesy, called in the senators of the two states and notified them of his purpose. He told Senators Penrose and Oliver (Republicans) of Pennsylvania, about Blakeslee and Senators Tillman and Smith (Democrats), of South Carolina, about Roper. The latter has been clerk of the ways and means committee, and owes his advancement to the postoffice department largely to Chairman Oscar Underwood, the floor leader of the house.

Representative A. Mitchell Palmer, of Pennsylvania, who aided in swinging his state to Wilson in the pre-convention campaign, recommended Blakeslee for Third Assistant. Blakeslee is the secretary of the Democratic State Executive Committee, and lives in Carbon county, near Philadelphia.

The potency of congressional influence is recognized in the fact that Representative A. Mitchell Palmer was chosen as the chairman of the Democratic caucus of the house on Wednesday, succeeding Postmaster-General Burleson, of which Representative Ashbrook, of Ohio, was chosen secretary.

William Corcoran Eustis, chairman of the local committee in charge of the ceremonies of President Wilson's inauguration, has

Anderson of the hygienic laboratory, and Surgeon Arthur Stinson a board to conduct an investigation, and they will meet Dr. Friedmann in New York tomorrow. ## 'X-GOVERNOR IS ACCUSED OF LOOTING BANK

Mexico City, March 8.—Dr. Rafael Cepeda, ex-governor of the state of San Luis Potosi, was today officially accused by the government of looting the bank of the city of San Luis Potosi of 10,000 pesos and also of disposing of government property for the purpose of securing funds for the revolution. The administration declares that Cepeda is conniving with Carranza.

## PRES. WILSON IS BUSY WITH HIS MESSAGE

Washington, March 8.—President Wilson is shaping his business so that he can begin preparation of his message to the special session next week. It is probable that he will deal with two subjects, the tariff at some length and currency reform briefly. Among those who called on the president today were Senator Pomerene of Ohio and members of the Supreme court.

## MEXICAN TROUBLES INCREASE

Huerta Government Will  
be Taxed to Its Ut-  
most Resources

REBELLION CONTINUES

In the Northern States and  
Troops are Rushed Into  
District from Mexico  
City—New Disor-  
ders Reported.

Mexico City, March 8.—With wire communication interrupted between the capital and the rebel-infected centers of Coahuila and Sonora the only information concerning conditions there emanate from government sources.

These make it appear today that a situation has developed which will tax the utmost resources of the new administration.

Federal troops in increasing numbers are being pushed into the district about Monclova, in Coahuila, the center of the Carranzista activities, while other forces are moving into Sonora, where former Governor Maytorena's efforts are said to be directed toward inciting the Indians to rebellion.

Eighteen hundred additional troops left here with the force of General Luis Potosi, where they will co-operate with the force of General Truzy Aubert, who is expected to reach Monclova today.

Hope that the government would be able to effect a peace agreement with Governor Carranza, of the state of Coahuila, appears to have been abandoned, and all resources of the War department are to be employed in crushing the Governor and his followers.

It is reported, but without confirmation, that Pascual Orozco has placed himself at the disposition of the government to combat the Maytorena rebels in Sonora, and that 1,200 Federal troops now are on their way to Chihuahua, where they will be placed in Orozco's command or subject to his direction. The organization of a division by General Cuellar is being rushed, and it is regarded as not unlikely that he will be given charge of the campaign in Sonora.

There are rumors of new disorders in the state of Morelos. Cosio Robelo, a persistent enemy of the government in the south, is reported to have assembled a band of 300 men from the remnants of the forces of the old leaders who were disposed to cast lot with the Huerta administration. The attitude of Emiliano Zapata toward the new Government still is in doubt. A note of encouragement came to the capital yesterday from the state of Mexico, where the surrender of 750 rebels of the band of Francisco Pacheco, who had kept Madero's army busy, was arranged in the town of Lerma.

Rumors of discord between General Felix Diaz and President Huerta are said to have grown out of the question of the date for the presidential election. Assurances are given from official sources that there is no basis for the rumors, but the story current is that General Diaz desires the elections at a date not later than eight

months off, while President Huerta is standing firm in his original declaration that they be held.

A government bill asking congress to authorize a loan of 50,000,000 pesos was introduced in that body yesterday. If this loan is secured a large portion of the money will be used to promote agriculture.

It is reported that the rebel governor of Coahuila with a thousand followers, in at Ahuala, Coahuila.

The government anticipates a decisive engagement between General Aubert's forces and those of Carranza Sunday or Monday.

Minister of the Interior Garcia Granados says there apparently is no hope for the pacification of the Carranzistas, and that a determined military campaign against them.

The money to redeem the life insurance policies carried by former President Madero and former Vice President Suarez is ready to be paid over to the beneficiaries as soon as proof of their death is established.

President Madero carried \$2,000 gold in insurance and Senor Suarez \$10,000 gold. Policies to the value of \$27,000 on Madero's life are carried in two New York companies and \$25,000 in a Mexican company. One half of the total of Suarez's policies was written in New York and the other half in this country.

General Gregorio Ruiz, who was executed in the palace here by order of Madero for taking part in the revolution against the government, carried a policy of \$10,000 gold in a New York company.

Rafael Cepeda, former Governor of San Luis Potosi, who refused to recognize the Huerta government, and was credited with joining the revolt headed by Carranza, has been arrested in San Luis Potosi City. He will be brought here for trial on a charge of rebellion.

Abraham Gonzales, former governor of Chihuahua, is on his way here under guard to stand trial on a charge of sedition. The Maderista rebels have been driven from Parral and that vicinity with heavy losses by General Mercado, and are fleeing toward Durango.

Eighteen rebel prisoners, including Miguel Acosta, treasurer for Francisco Madero during a previous revolution, were taken to San Luis Potosi yesterday from the north.

Chicago, March 8.—Edward Hillman of Hillman's, one of the city's largest department stores, told the Illinois vice commission today that he thought there was in some instances connection between low wages and immorality among women.

"Do you think that a woman would sell her virtue before she would starve?" asked Lieut. Gov. O'Hara, chairman of the commission.

"Yes, I do," came the prompt answer, the first of its kind to be received from an employer.

"Thank you," said O'Hara, apparently surprised at the admission.

Hillman said that 817 girls and women are employed at his store. Of these, 36 girls receive \$5.00, 24 get \$4.00, two or three earn \$3.50, and six receive \$3.00.

Hot Springs, Ark., March 8.—Charles A. Cary and E. Reynolds of Tulsa, Ill., perished in the fire that destroyed several mercantile establishments here yesterday. Their bodies were found in the ruins of an ornamental goods store this morning. The discovery here of yesterday's fears that all patrons had not escaped from the store which was set on fire by a gas explosion.

Chicago, March 8.—The first violence of the rubber strikers here took place at the plant of the Goodrich-Diamond Rubber Company at quitting time last night, when thirty policemen and several hundred striking rubber workers engaged in a near riot.

Strikers were parading before the gates and refused to desist when police tried to clear a way for the employees to leave the factory.

M. A. Dueso was locked up and George Martino, a city detective, was struck on the head with a stone and had to be removed to a hospital.

Mrs. Margaret Prevey, one of the leaders, known as the strike's "Joan of Arc," was one of the most conspicuous in the firing line. She urged the men to fight. She knocked the hat from one officer's head and dared him to fight.

The officers took her in hand and threatened her with arrest, but she was later released.

Dueso was arrested on a charge of disorderly conduct and inciting to riot.

It was Dueso's desire for vengeance on the police that caused the fight. He mounted a box in the street and attempted to address the strikers coming from a meeting in the Reindeer hall. He was ordered by the police to get down from the box and when he failed to obey, he was jerked down unceremoniously to the ground.

Dueso thereupon called on the strikers to form in line behind him and led them to the Goodrich plant, where they were allowed to march around the plant until within ten minutes of the time for the workmen to be dismissed for the day. They then planted themselves in front of the gate and when ordered to move on refused to do so.

The police forced them back and the trouble started. Some of the strikers attempted to get bricks to hurl at the police, but before they had a chance to prepare for the onslaught the police were upon them, and after thirty minutes' fighting, drove them away from the plant.

This is the first real disorder since the strike started. Police announce they are fully prepared for any trouble which may occur. The Green senate probers will resume their quiz today.

# PRES. WILSON

(Continued from Page One.) been brought out as a possibility for the post of ambassador to Germany. Gossip among White House callers today centered largely on the more important diplomatic positions which the president is expected to fill within a short time.

It is known that the Ambassador to Great Britain is one of the first the president and Mr. Bryan will take up, and since Mr. Bryan plans to visit Lincoln for a few days about the middle of this month, this nomination is daily expected.

There were only a few new names suggested for foreign posts. Joseph E. Davies, of Wisconsin, who was in charge of the Western headquarters of the Democratic National Committee, was said to have been offered the embassy at Rome, and the report declared that he had refused.

Colonel Thomas Birch, formerly aid to Mr. Wilson as governor of New Jersey, was said to be in line for the post of Minister to Belgium. T. W. Gregory, of Austin, Texas, was likewise reported to be slated for the ambassadorship to Mexico.

Representative A. Mitchell Palmer, of Pennsylvania, is urging Geo. W. Guthrie, Democratic state chairman of Pennsylvania, for an important diplomatic post.

While Senators and Representatives from other states are hustling for fat jobs in the executive departments here there is yet no sign of eager activity from the Ohio delegation.

Senator Pomeroy says he will see members of the cabinet before he returns to Ohio for his patronage conferences, but these latter pertain primarily to the distribution of the local federal offices in Ohio.

Several of the Ohio representatives have gone home to figure out the patronage problems in their respective districts. Representatives Sharp, Whitacre, Ashbrook and Francis already have left, and most of the other members will be home by the middle of next week.

Representative John W. Davis, of Clarkburg, W. Va., will have the endorsement of most of the Ohio delegation for the federal bench vacated by United States Senator Nathan Goff, of West Virginia.

Seven of the ten West Virginia appointments made by President Taft and held up by the senate are now at the disposal of Senator William E. Chilton.

Postmaster W. H. Bowen, of Covington, Ky., and Representative Arthur C. Rouse, of Burlington, Ky., have an appointment with officials of the postoffice department to take up the matter of an increase in the number of clerks in the Covington office.

# INVESTIGATING THE EXPLOSION AT BALTIMORE

Baltimore, March 8.—Investigations already are under way to fix the blame for the disastrous explosion of more than 300 tons of dynamite in the hold of the British tramp steamer Alum Chine in the lower harbor yesterday, in which more than 100 persons lost their lives, three men or more were injured and property was damaged more than \$250,000.

Federal authorities, the interstate-commerce commission, and the British consul at Baltimore, the latter because many of the crew of the destroyed steamer are subjects of Great Britain, will conduct an investigation.

Belief is expressed that the real cause of the explosion never will be known. It was considered certain this morning that many of the bodies had not been recovered.

Up to noon today there had been no additional deaths among the injured but a number were reported to be in a precarious condition. The hospital records showed that three injured victims were taken to those institutions. It was learned today that twenty-five tons of dynamite remained unexploded in one of the cars aboard the lighter tied alongside the Alum Chine when she exploded. The harbor authorities have placed a buoy over the spot to warn passing vessels of the danger lying beneath the surface of the water.

Officials announced that they will reply Monday with a refusal to comply with the demands. The number of pickets at the plant increased today. Taxicabs bearing workers to the plant were stoned.

"There, Jack, you know you are just as fond of your neckties as Evelyn is of her hair ribbons," daddy spoke up. "I hope you are not so set against hair ribbons that I may not tell you a little story about one."

"No, indeed," Jack replied. "I wouldn't mind a story about a ribbon at all."

"And I should like one," Evelyn added. "You'll tell us what the ribbon looked like?"

"I'm afraid I couldn't do that," daddy replied. "There were so many of the ribbons. They belonged to a little girl named Jennie."

"Jennie had nice yellow hair that fell almost to her waist, and she was very proud of it. Her mother always tied it up with blue ribbons, and Jennie after awhile began to get tired of blue ribbons."

"She had a little friend named Della who had a very handsome red satin ribbon. Jennie thought it was lovely."

"Why can't I have a red ribbon like Della's?" Jennie asked one day.

"Because your hair isn't the right color," her mother answered. "Only dark haired little girls look nice with red ribbons. Blue is the best color for little girls with light hair."

"I'm tired of light hair and the old blue ribbons," Jennie grumbled.

"The next morning she went next door to see her friend Della. She told her about the red and blue ribbons. 'And, oh, dear, I wish there was something I could do to make my hair dark,' she said."

"Why?" exclaimed Della. "I know! Mother's making an old dress black, and I should think black would be a beautiful color for your hair. Then you could wear the very reddest ribbons there are. They boiled the dress in some black stuff, but they've taken the kerrie off the fire now, and it's standing on the floor getting cold. Come on, let's go in and try it!"

"Well, there was no one in the laundry, and the dye was just nice and warm. Jennie dipped her hair into it and dipped it again. She was a sight when she went home. Her clothes were soiled, and though her mother washed it right away, her hair was such a funny color that Jennie was taken to the haircutter, and he snipped her hair off. Then she couldn't wear hair ribbons at all for a long time. Folks called her 'sonny' and 'hub' because she looked like a boy, and Jennie was dreadfully sorry she had not been satisfied with her blue ribbons."

## TUMOR REMOVED WITHOUT KNIFE

Several Doctors, Including a Chicago Specialist, Said It Required a Delicate Operation.

NON-SURGICAL METHOD.

United Doctors' Method of Treatment Removed the Tumor Without Surgery.

## It is nothing unusual for some sick or ailing person to remark to the physician in charge of the United Doctors' Institute that they have come to the institute to avoid an operation and that other doctors had informed them that nothing would be done except an operation. It is also nothing unusual for the United Doctors to accomplish remarkable results with these same patients without using the knife.

## The great success of the non-surgical system of treatment, as used by the United Doctors, who have their Newark Institute on the second floor of the Arcade building, occupying suites 39 and 40, is now well known to the public at large. They never operate and treat among other ailments and troubles, diseases of the nerves, blood, heart, liver, kidneys, bladder, skin, brain, including rheumatism, epilepsy, gall stones, goitre, rickets, dropsy, catarrh, deafness, eczema, scrofula, neuralgia, lung troubles, stomach and rectal troubles, and many other diseases of women and diseases of men with the greatest success.

## The following case cites an incident in one woman's experience: Dayton, O., Oct. 26, 1912. "To the Public: "I have been greatly annoyed by a tumor which has been under my tongue for a year past. I have consulted several doctors, including a Chicago specialist, and they all wanted to take me to an operating table, explaining that it would be a very delicate operation. "On October 17, I consulted the United Doctors and now, in eleven days, my tumor is gone and I have complete use of my tongue. (Signed) Mrs. Alpha Omega Mitchell, 44 Catherine Street, Dayton, Ohio. Any one having any chronic disease or trouble can do no better than visit the United Doctors' Institute for a confidential consultation and examination. Their grand offer of free consultation, free examination and free treatment, except for the bare cost and distribution of the medicines used, is open until the 10th of March, after which regular fees will be charged to all.

Get a 25-cent package of "Pape's Cold compound" from your druggist and take it with the knowledge that it will positively and promptly cure your cold and end all the gripe misery; without any assistance or bad after effects and that it contains no quinine—don't accept something else said to be just as good. Tastes nice—acts gently.
